SUMMARY

Accomplished Software Engineer with 1 years of hands-on experience in frontend development. Proficient in crafting software applications to meet diverse requirements.

TECHNICAL SKILLS

JavaScript	React.js	Next.js	Angular
REST	TypeScript	Redux	DSA
HTML5	CSS	J-Query	Git

EXPERIENCE

01/2024-Present
Gurgaon

Frontend Developer   **Antino Labs**

- Worked on a production-level application, handling a large user base and ensuring seamless performance.
- Integrated APIs efficiently for both React and Angular applications, ensuring smooth data communication.
- Developed and optimized reusable React components, improving application performance and maintainability.
- Worked on both React and Angular tech stacks as a frontend developer, contributing to multiple projects.

07/2023-12/2023
Remote

Frontend Developer   **Apsiso Solutions**

- Built and deployed multiple frontend projects using ReactJS, enhancing user experience and responsiveness.
- Developed and maintained websites for clients across various industries, ensuring cross-browser compatibility and mobile responsiveness.
- Collaborated with backend developers to integrate APIs and improve application functionality.
- Optimized website performance, reducing load times and improving SEO rankings.

PROJECTS

RxMen (Healthcare Platform)

- Spearheaded the development of a **scalable healthcare platform** in **Angular 14**, facilitating seamless doctor-patient interactions with **a user base exceeding 100K**.
- Engineered **real-time chat functionality** using **WebSockets and Agora**, improving consultation efficiency by **40%**.
- Designed and integrated a **comprehensive CRUD system**, reducing patient data retrieval time by **30%**.
- Optimized platform performance and **enhanced SEO**, increasing website traffic by **50%** post Shark Tank feature.
  Tech Stack - Angular 14, TypeScript, WebSockets, Agora, SEO Optimization

Indigo Paints (Admin Panel)

- Built and maintained a **React.js-based Admin Panel** managing **6,000+ users**, improving operational efficiency by **35%**.
- Integrated **REST APIs** to enhance real-time data processing, reducing request-response latency by **25%**.
- Designed and enforced a **role-based authentication system**, increasing security compliance by **90%**.
- Enhanced UI/UX to streamline workflows, reducing admin task completion time by **20%**.
  Tech Stack - React.js, Redux, JavaScript, REST APIs, Role-Based Authentication

Mama Stops (Logistics Admin Panel)

- Developed a **React.js-based Admin Panel** for a logistics management platform handling **GPS tracking, fuel and fund management, and driver coordination**.
- Implemented an **advanced analytics dashboard**, enabling real-time fleet performance monitoring and optimizing operational efficiency.
- Integrated **secure APIs** for seamless data management, reducing manual intervention by **30%**.
- Developed reusable, high-performance React components, improving maintainability and scalability across multiple logistics modules.
  Tech Stack - React.js, Redux, JavaScript, REST APIs, Logistics Management System

EDUCATION

2020-2024

B. TECH In Computer Science   **JNU**
JAWAHARLAL NEHRU UNIVERSITY
